

Scrappage Scheme

The government scrappage scheme doesn't need to be complicated. With our quick guide, we can show you just how easy it really is.

1. Funds are limited and so is time!

We would hate you to miss out and with government funds limited, time is running out. The scheme official ends in March 2010 or may be sooner if funds run out. At the moment there are even greater savings to be had until the increase of VAT on the 1st January 2010. On some Ford vehicles, this could save you over £600 alone!

2. Do I qualify for the scheme?

You must have owned your vehicle for over 12 months and it must have been first registered in the UK on or before 29th February 2000. It must currently be insured, taxed (or declared SORN) and MOT'd. The V5C log book must be in a UK address and your vehicle should be a car or small van weighing up to 3,500 kilos.

3. What discount will I receive?

As long as your vehicle qualifies, you will receive £2,000. But don't worry if your vehicle doesn't qualify, we can still offer you a fantastic deal!

4. Am I limited in what I can buy?

You can purchase any **new** car or small van weighing up to 3,500 kilos. It will have to be registered to the exact name and address on your current V5C log book. The vehicle you purchase must be new at first registration with no former keepers.

5. Do I have to dispose of my vehicle?

No, we take care of that for you. On the day of collecting your new vehicle, we will scrap your old vehicle with a registered ELV (end of life) treatment facility.

6. What if I have any questions?

If you have any queries, please do not hesitate to visit us, telephone on 01227 374939 or e-mail info@countygarageford.co.uk
